Dear Ms Aceto,

Please submit the following as my input:

RE: Open Meeting on Smart Meters

DOCKETED BY 

Many individuals including myself, in the White Mountains area are concerned with the recent installation by Navopache Electric of so-called Smart Meters. Concerns include but are not limited to installation without informed consent, potential health risks, privacy, interference with existing wireless internet services, potential for monitoring household activities by proxy, and so on. Speaking for myself, I oppose the installation of smart meters especially without my written consent, and I believe that as a property owner the utility should be required to comply with my wish to have the Smart Meter removed.
